

Interactions and time	Stage and Aim	Procedure (each sub-stage is marked by a bullet point)	Teaching notes for each substage	Comments for the stage
5' (Mins) T-Cl S-S Cl-T	Lead-in/context setting – to engage Ss into the topic of the lesson and get them using English. Also to activate schemata for the text	- T (teacher) introduces the lesson topic eg. with a short story, pictures or even video to get Ss engaged. T then gives a simple but interesting question related to the topic of the lesson to discuss. This could be a prediction of the text the Ss will be reading later. - Ss discuss the topic in pairs while T monitors - T conducts plenary (whole class feedback) sharing one or two interesting ideas, involving all the group. These can go on the board to be referred to later.	- This needs to be set clearly with TT (teacher talk) graded or Ss will not know what to do and will not be engaged - Remember to monitor but be careful not to intrude - Only choose one or two Ss to give ideas, get Ss talking rather than the T. Don't overrun.	Many planning hours are wasted by too much focus on the lead-in. Deal with the main reading task first.
5' T-Cl S S-S Cl-T	Reading Task. (Gist or Specific Information) – gist: to practice skimming; SI to practice scanning.	- T sets the task. If gist, it can be a prediction based on the previous stage, or a simple closed question. If SI, then two or three questions will do. - Ss read the text on their own while the teacher monitors - Ss compare answers in pairs (threes). - Quick feedback getting the whole class to give the answer.	- Task needs to be set clearly. Checking is a good idea, and their should be a time limit; ss should be able to get the answer(s) within one min. If not it is too challenging. - Be ready to assist Ss straight away if necessary. - Remember to include this – it's important - Keep this quick and clear, DO NOT ask extra questions	The text is a model for what we want Ss to achieve later. It is often a good idea for the T to write this themselves. It should be clear for the level taught.
5' T-Cl S S-S Cl-T	Focus on structure, genre, text layout and organisation of the text	- T sets the task. - Ss identify different parts of the text e.g. intro, conclusion etc. - Ss compare answers in pairs (threes). - Feedback on the board clearly showing the layout of the text	- Needs to be set clearly. First as an example is a good idea - T monitors and supports were needed without interfering - As above - Projecting or otherwise having the text on the board is a good idea here	This highlights the layout of the text. Material can include a labelling of text parts as a task
5' T-Cl S S-S Cl-T	Focus on useful language – to identify items which may be useful to Ss.	- T sets the task. - Ss identify useful language by matching definitions - Ss compare answers in pairs (threes). - T elicits answers from the group, drilling and clarifying (CCQS) where necessary	- Needs to be set clearly. First as an example is a good idea - T monitors and supports were needed without interfering - As above - Keep this short. But make sure that Ss have oral model and that understanding is checked.	T <u>underlines</u> key phrases in the text before the lesson. In this task Ss match these phrases to definitions. Only include three of four items. Don't overrun
3' T-Cl S	Writing Preparation – to give Ss thinking time to plan what they will write.	- T sets task. Distributes a template for Ss to note down ideas - Ss note down ideas.	- Needs to be set clearly. Show template - T monitors carefully. Some Ss may need help in thinking of ideas.	Typically Ss prepare on their own, though they could work together if the T thinks it is a good idea. Creating a template is important.
12' T-Cl S	Writing - Ss complete their text with teacher guidance with a clear communicative purpose	- T Sets the task. - Ss write their composition. T monitors and supports throughout, promoting slower Ss and also making notes on language for FB later. Ss given time warnings so that they all can finish.	- Make sure the task is set clearly - This is a work in progress and T needs to give advice and guidance throughout. Early finishers need to be prompted to proof read. Keep close track of timing.	A clearly designed template will help significantly here. This is not a test, The T needs to support a lot and use time well.
10' T-Cl S S-S Cl-T	Reading (Exchange)/ Feedback – Ss react to each others texts. T provides lang feedback	- T needs to give a clear and simple task, based on content. - Ss read quickly then discuss with partners. - T conducts plenary (whole class feedback) sharing one or two interesting ideas, involving all the group. - T gives FB on Ss language	- Plan exchange well. Check Ss understand the task. - Monitor and support where needed - Get Ss talking and interacting rather than the T. - Give some good language as well as errors	This provides FB on content and language. NB. If teaching writing emails, Ss could also write a reply, For this the precious stage is shorter and then repeated.
